Re: Contributions Delivered on ESG Projects and Review of Communications Policy

I would hereby like to express my gratitude to the NWU Students for the work done on the ESG projects and the review of the communication policy.

The contributions done through the presented projects provided creative solutions that we will explore going forward in driving campaigns surrounding the ESG initiatives.

The reviews on the communication policy was insightful and provided accurate direction and strategies to address shortcomings in the current policy.

We appreciate your time and effort invested to provide us with new insights to consider for our future work.

Yours faithfully
